

*DIS Student Meeting*

The teams discussed their final wrap up of their DIS and what the final deliverables should look like.

*iMaker Monday: Theme, Events, & Uses*

Ryler Calabrese gave a great introduction to the FabLab in FAB422. The FabLab is restricted to students registered to the Fine Arts program as each student pays a fee that supports the FabLab. The FabLab uses a software called Skanect and a Kinect camera as a 3D scanner. The software or hardware failed to work at our visit. The Collaboratory plans on investigating this solution further.

The TechNole Student group introduced them selves during the iMaker Monday field trip. It should be noted that TechNole identified themselves as a student group rooted more in the Tallahassee business community rather than the academic culture of FSU.

Corrected previous discussion reflection meeting minutes. Corrected attendance and removed Nick from the list and added Nolan. Corrected the Next Meeting date and topic.

*Next meeting:* 2pm December 1<sup>st</sup>
